Summary

Software Engineering student with hands-on experience in full-stack and frontend-focused web development using React, Django, and Django REST Framework. Skilled in building responsive user interfaces, developing RESTful APIs, integrating relational databases, and delivering production-ready applications. Seeking a junior software engineer or internship role to apply technical skills and continue professional growth.

Technical Skills

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
Backend: Django, Django REST Framework, REST APIs, JWT Authentication
Databases: MySQL, PostgreSQL
Tools: Git, GitHub, Postman

Selected Projects

Smart Event Hub: Full-stack event management platform using React, Tailwind CSS, Django REST Framework, JWT authentication, and PostgreSQL. Users can create, update, delete, and RSVP to events.

Mini Tech E-Commerce Store: Modern e-commerce frontend built with React, Tailwind CSS, Context API, and React Router. Features product listings, filtering, cart management, and checkout simulation.

CyberBeat Music Platform: Neo-futuristic music streaming UI inspired by Spotify using React, Tailwind CSS, and Firebase with a strong focus on UI/UX, performance, and responsive design.

Experience

Full-Stack Web Development Intern – Future Interns. Worked on real-world full-stack and frontend development tasks using React and Django, tested APIs with Postman, and followed software development best practices.

Education

Bachelor of Science in *Software Engineering*, Bahir Dar University (Currently Studying).
