Summary

Software Engineering student with hands-on experience in full-stack web development using React, Django, and Django REST Framework. Skilled in building responsive user interfaces, developing RESTful APIs, integrating relational databases, and delivering production-ready applications. Seeking a junior software engineer or internship role to apply technical skills and continue professional growth.

Technical Skills

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Backend: Django, Django REST Framework, REST APIs, JWT Authentication and Web socket

Databases: MySQL, PostgreSQL

Tools: Git, GitHub, Postman

Selected Projects

Q&A Platform with Real-Time Chat Room

Full-stack Q&A platform built using React, Django, Django REST Framework, and PostgreSQL. Features include authentication, question and answer management, real-time chat, notifications, REST APIs, and responsive UI design.

Mini Tech E-Commerce Store

Modern e-commerce platform developed using React, Tailwind CSS, Django, and Chapa payment integration. Includes product listing, filtering, cart functionality, checkout flow, and admin management features.

Experience

Full-Stack Web Development Intern – Future Interns. Worked on real-world full-stack and frontend development tasks using React and Django, tested APIs with Postman, and followed software development best practices.

Education

Bachelor of Science in Software Engineering, Bahir Dar University (Currently Studying).
